

## WHERE YOU'RE COMING FROM

(T. Hornisch)

You've been holding out for something real  
A pick me up to cure the stall  
Sometimes the next move isn't easily revealed  
You have to push yourself to fall  
I know where you're coming from  
You're not alone, where you're coming from  
You've been holding out for something real  
To carry you down from this cloud  
I wish indecision was something I could steal  
From those who need an answer now  
I know where you're coming from  
You're not alone, where you're coming from  
I know where you're coming from  
You're not alone, where you're coming from  
Don't you worry our love is sturdy  
And through this ocean of time will journey  
And don't you worry I'll always be flirting with you  
I know where you're coming from  
You're not alone, where you're coming from  
I know where you're coming from  
You're not alone, where you're coming from

## CRYING SHAME

(C. Hornisch)

On a B-line bolting for the border line  
Somebody whippers "life's just a roll of the dice"  
You can leave your keys on the table  
And send yourself to some island now advice  
'Cause I don't recall what I used to see  
Looking back's just a flash of make believe  
Like a dream left stranded in the rain  
It's a cry, cry, cry crying shame  
On a freeway fixing for the finish line  
Somebody tells me "nobody runs with the stars"  
When you leave be sure you take that with you  
And let's see if you get very far  
'Cause I don't recall what I used to hear  
Looking back's just a flash then it disappears  
Like a dream left standing in the rain  
It's a cry, cry, cry crying shame  
After midnight searching for a better time  
Somebody points out "after all it's only real"  
You can leave your dreams on the table  
And tell yourself that you got a fair price  
'Cause I don't recall what I used to feel  
Looking back's just a flash and then you heal  
Like a dream left searching for a name  
It's a cry, cry, cry crying shame  
Oh, oh you went and gone too far  
Oh, oh now look at where you are  
Now look at where you are  
In my younger days somewhere lost in summer time  
Somebody does their best to break up a fight  
You can let go and let destiny take you  
Or you can hold on and suffer the price  
'Cause I don't recall what I used to know  
Looking back's just a flash then you're feeling old  
Like a dream left fading in the rain  
It's a cry, cry, cry crying shame

## I NEED YOU NOW

(C. Hornisch)

Holding on to your four-leaf clover  
After all it got you through yesterday  
Can't quite pin down what you're stumbling over  
After all you've been through you can't say  
One hour Sunday and you'd think that you're an angel  
Hell, I won't let it bring me down  
I need you now  
Instant exposure, you smooth approach her  
Tell her you'd die for her the following day  
Roll me over, hold me closer  
Keep me from fading away  
She's standing close now she's talking like an angel  
And I believe that I'm falling in love  
I need you now  
Like a soldier, shoulder to shoulder  
Draw you the line and then teach you to stay  
Tell me over and over and over  
You can will what you want from today  
This crowded road has got me going somewhere  
But it's nowhere near where I want to be  
I need you now

## REACH FOR YOU

(T. Hornisch)

When I reach out, I'll reach out for you  
When I reach out, I'll reach out for you  
Some fall in love only to part  
Let's never lose sight of that spark  
Start over  
When I reach out, I'll reach out for you  
You've always been the one I could turn to  
It's been so long, it's been so long, it's been so long  
We fell in love  
You promised me we'd always have our place to meet  
Start over  
I can see now looking back  
Real love finds its strength to last starting over  
When I reach out, I'll reach out for you  
When I reach out, I'll reach out for you  
I'll reach out for you  
I'll reach out for you

## SAY GOODBYE

(J. Ockwig)

Through the years, I've only seen you  
In a memory  
It's time for me, to say goodbye  
Our time was short, I closed my eyes  
And then you were gone  
It's time for me, to say goodbye  
I must let you go, our paths have parted  
You went away  
I didn't know, the road you chose  
It's where you belong  
I must let you go, our paths have parted  
You went away  
I didn't know  
It's time for me to say goodbye  
It's time for me to say goodbye

## POWER LINES

(T. Hornisch)

Power lines in the landscape of our minds  
When the lights go out do we still turn on,  
Or are we just gone?  
We'll all sleep sound tonight  
We'll all sleep sound tonight  
We'll all sleep soundly  
A battery, my heart hung like a clock  
Whips only about my ticks and tocks  
There's no escaping this fate  
I'll sleep sound tonight  
I'll sleep sound tonight  
I'll sleep sound tonight  
I'll sleep soundly  
We'll all sleep sound tonight  
We'll all sleep sound tonight  
We'll all sleep sound tonight  
We'll all sleep soundly, right!  
ALL RIGHT!  
Power Lines  
Power Lines  
In the landscape of our minds  
When the lights go out do we still turn on,  
Or are we just gone?
